

Do You Have Depression?

Psychiatry researchers at St. Michael's Hospital are studying suicide risk. Researchers will try to determine whether there are biological markers for suicide risk.

Participation will involve multiple visits completing questionnaires about your mood, performing attention tests, and receiving brain imaging.

You may be eligible to participate if you:

- Are between 18-70
- Have been diagnosed with major depressive disorder
- Have no current medical illness
- **If you have ever contemplated suicide or made an attempt**
